Online Property Management - Airbnb (Cozy Crib)

Team Number: Airbnb-14

Team Members

Emmadi, Likhitha - lxe220001

Soundararajan, Kameshwari - kxs210013

Mavuluri, Mohana Rupa - mxm210013

Name of the Website

Cozy Crib

Project Description

The purpose of the website is to provide an online property management system, where the users can search for properties and make reservations for the required dates according to the availability of the properties. The user can also sign up as a host if he wants to list a property.

Users can register themselves with the cozy crib. The registered users can view their account, edit their details, add properties to their favourites list, rate a property and make reservations.

The Host can list a property, edit its details and also delete the property.

MongoDB Database Schema and example objects

Project uses a MongoDB database, which has 5 collections: Users, Host, Properties, Reservations and Reviews.

Users - Information about the User and credentials like email id and hashed password

{

Email id - String

Hashed Password - String

First name - String

Last name - String

Phone number - String

Date of birth - Date

Profile photo URL - String

Date Registered - Date

Is_guest - Boolean

Is_host - Boolean

Favourites - Array of [“property ids”]

property id is referenced from the PROPERTY Collection it is a string

}

```

▶ _id: ObjectId('6392485b53c962780cca881e')
  first_name: "likhitha"
  last_name: "emmadi"
  email_id: "e@gmail.com"
  hashed_password: "$2a$10$EeV5EofSMTjmDI8ZLmJNMufkIvQaG/727LBYyVdmxmm52MNiIBffq"
  phone_number: "123-456-7890"
  date_of_birth: "2000-12-09"
  date_registered: 2022-12-08T20:26:03.210+00:00
  profile_photo_url: "/uploads/profile_photo_url1670573895489.jpg"
  is_guest: true
  is_host: false
  ▼ favourites: Array
    ▼ 0: Object
      property_id: "6390d4ad746cab8544a34f44"
      property_title: "Casita"
      property_city: "Ennis"
    ▼ 1: Object
      property_id: "6390d485746cab8544a34f43"
      property_title: "The Glenn"
      property_city: "Kingston"

```

Host - Information specific to the Host, like properties listed and the superhost details

{

Id - Object id

User_id - String // Reference to USERS collection

Short_description - String

Is_superhost - Boolean

Co-host - String

Start date as host - Date

Response Rate - String

Response Time - String

Languages known - String

Properties listed - Array of ["property ids"]

property id is referenced from the PROPERTY Collection it is a string

}

```

_id: ObjectId('6395738d09fb5e177cdedb27')
user_id: "6394148a746cab8544a35021"
short_description: "I am a Texas native. I am passionate about food, travel and seeking th..."
languages_known: "English"
co_hosts: ""
is_superhost: false
start_date_as_host: 2022-12-11T06:07:09.936+00:00

response_time: "within an hour"
properties: Array
  0: ObjectId('6390d4ec746cab8544a34f46')

```

The details specific to hosts are stored in separate collections, this will make the reads and writes easy when we need just host specific details, instead of reading the whole users collection.

Instead of storing all of the reviews with the PRODUCT DETAILS collection, we split it into two collections: the PRODUCT DETAILS collection stores property's ten most recent reviews and the REVIEWS collection stores all reviews. Each review contains a reference to the property for which it was written and the user by whom it was written.

Property - Contains all the details about the property, its availability and the host etc,

```

Major Functionalities

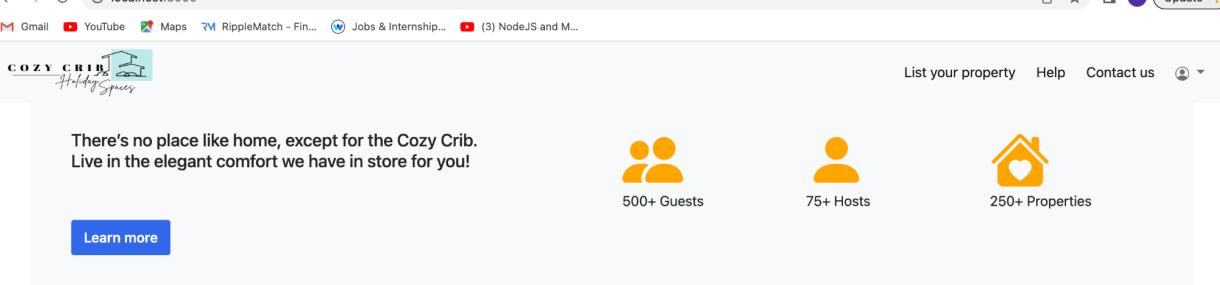

- User signup: Register a new user to the system
 - Form validation: Check if all mandatory fields are filled out and if user is already registered
 - Check if the password is strong enough. Define the rules of having a strong password. (More than 8 characters, atleast one capital letter, atleast one small letter and atleast one number)
 - User passwords should be hashed, and only encrypted version of passwords should be stored in the database
- User login - login with email id and password
- List all properties in the system
- Users will “filter” properties based on a city, check in date, check out date and number of guests.
- Users will add properties to their favorites list
- Users will access their favorites list
- Users will remove properties from their favorites list
- Users will be able to rate a given property
- They will enter their feedback/comments as they rate the property
- Users will be able to sign-up for a host account (Become a host)
- Hosts will add properties to the system
- For adding a property, they should be able to upload picture(s)
- Hosts will update property details (description, amenities, price, cleaning fee etc.)
- Hosts will delete properties from the system (soft delete: mark them as unavailable) - they can also mark them as available from unavailable
- Users will make reservations. For making a reservation, availability of the property should be checked
- For users, reservations (both past and future) will be listed along with reservation dates
- Users will be able to cancel the reservation if it is before 48 hours before reservation date/time

View More details about the property

The screenshot shows a web browser window with the title bar "Cozy Crib" and "Airbnb-14 Project Report - Go...". The address bar shows "localhost:3000/properties/6390d2ec746cab8544a34f42". Below the address bar is a navigation bar with links to Gmail, YouTube, Maps, RippleMatch - Fin..., Jobs & Internship..., and NodeJS and M... The main content area features the "COZY CRIB" logo with "Hillside Hideaway" underneath. A red "Reserve" button is visible. The property name "Hillside Hideaway" is bolded, followed by a "save" link with a heart icon. A large image of a bedroom with a double bed, red pillows, and a red blanket is displayed. Below the image, the text "Hosted by Mary" and "2 Bedrooms with 3 Beds" is shown. At the bottom of the page, there are links for "Terms & Conditions" and "Privacy Policy" on the left, and "© 2022 Copyright Cozy Crib Inc." on the right.

Amenities

- Free wifi
- Free parking on premises
- Garden view
- Patio or balcony
- TV
- Kitchen

The screenshot shows the same web browser window as the previous one, but now includes more detailed information. It features sections for "Available Dates" (with date range 12/12/2022 to 12/16/2022), "House rules" (stating check-in after 2:00 PM, checkout before 11:00 AM, self check-in, must be at least 30 years old, and booking individual must be present during the stay. Occupancy is limited to 8 guests), and "Cancellation policy" (non-refundable). Below these are sections for "Rating" (2.5 stars from 2 reviews) and "Reviews". The first review is by "Priya" (2 stars) from 12/10/2022, describing the space as "Awesome". The second review is by "likhitha" (3 stars) from 12/11/2022, stating it is "by far the best airbnb of all time! The space was so unique and artfully designed". At the bottom, there are links for "Terms & Conditions" and "Privacy Policy" on the left, and "© 2022 Copyright Cozy Crib Inc." on the right. To the right of the reviews, there is a small thumbnail image of the property's interior.

Register as a User

The screenshot shows the 'Sign up' page for Cozy Crib. On the left, there are several input fields: 'First Name *' (with a person icon), 'Last Name *' (with a person icon), 'Date of birth *' (with a calendar icon), 'Email Id *' (with an envelope icon), 'Phone Number *' (with a phone icon), and a file upload field for 'Profile photo (jpg/png)' which currently says 'No file chosen'. On the right, there is a large, colorful illustration of a yellow house with a blue roof and a green lawn, set against a blue circular background. At the bottom of the page, there are links for 'Terms & Conditions' and 'Privacy Policy' on the left, and a copyright notice '© 2022 Copyright Cozy Crib Inc.' on the right.

Password Validation

The screenshot shows the 'Sign up' page for Cozy Crib. It features a password input field with a lock icon and the label 'Password *'. Below it, a list of validation rules is shown: 'Password must contain the following:' followed by four items: 'A lowercase letter', 'An uppercase letter', 'A number', and 'Minimum 8 characters'. There is also a 'Repeat your password *' field with a key icon. At the bottom of the form, there is a checkbox labeled 'I agree all statements in [Terms of service](#) *'. Below the form, a link says 'Already have an account? [Login](#)'. A green 'Register' button is at the bottom. The page includes standard navigation links like 'Gmail', 'YouTube', 'Maps', etc., at the top, and a copyright notice '© 2022 Copyright Cozy Crib Inc.' at the bottom.

Login

The screenshot shows a web browser window with the URL `localhost:3000/property_listing`. The page header includes the Cozy Crib logo, a search bar, and links for 'List your property', 'Help', and 'Contact us'. Below the header is a large 'Login' form. The form has two input fields: 'Email *' with a placeholder icon and 'Password *' with a placeholder icon. Below the fields is a link 'New to Cozy Crib? [Register](#)'. A blue 'Login' button is at the bottom left of the form. To the right of the form is a decorative illustration of a yellow house with a green lawn and a hand handing over a set of keys. At the bottom of the page is a dark footer bar with links for 'Terms & Conditions' and 'Privacy Policy' on the left, and '© 2022 Copyright Cozy Crib Inc.' on the right.

View account details once you login

The screenshot shows a web browser window with the URL `localhost:3000/account`. The page header includes the Cozy Crib logo, a search bar, and links for 'List your property', 'Help', and 'Contact us'. A dropdown menu in the top right corner shows 'My account' and 'Logout'. The main content area displays a user profile for 'likhitha emmadi'. It features a placeholder profile picture, the name 'likhitha emmadi', and three navigation links: 'Edit profile' with a pencil icon, 'Reservations' with a calendar icon, and 'Favourites' with a heart icon. Below this is a 'About' section with five form fields: 'First Name' (likhitha), 'Last Name' (emmadi), 'Date of birth' (2000-12-09), 'Email' (e@gmail.com), and 'Phone number' (123-456-7890). At the bottom of the page is a dark footer bar with links for 'Terms & Conditions' and 'Privacy Policy' on the left, and '© 2022 Copyright Cozy Crib Inc.' on the right.

View the favourites added by the user

The screenshot shows a web browser window with the title "Cozy Crib" and the URL "localhost:3000/favourites/6392485b53c962780cca881e". The page displays a user profile for "likhitha emmadi" with a placeholder profile picture. Below the profile, there are tabs for "My profile", "Edit profile", "Reservations", and "Favourites". The "Favourites" tab is selected, showing a list of two properties: "Casita" in Ennis and "The Glenn" in Kingston. Each entry includes a "More Details" link and a delete icon. At the bottom left is a blue "Add to favourites" button. The footer contains links for "Terms & Conditions" and "Privacy Policy", and a copyright notice "© 2022 Copyright Cozy Crib Inc."

Add to favourites and remove from favourites by clicking on the heart button next to the property, Or you can remove it by clicking the delete button from favourites list

The screenshot shows a web browser window with the title "Cozy Crib" and the URL "localhost:3000". The page displays a grid of four property listings: "Hillside Hideaway" (Wills Point, Texas), "The Glenn" (Kingston, Oklahoma), "Casita" (Ennis, Texas), and "Moose Haven Cabin" (Canton, Texas). Each listing includes a thumbnail image, the property name, location, number of bedrooms and beds, price per night, ratings (using stars and hearts), and a "Show details" button. The "Casita" listing has a larger preview image below it. The footer contains links for "Terms & Conditions" and "Privacy Policy", and a copyright notice "© 2022 Copyright Cozy Crib Inc."

View the list of reservations for that particular user

The screenshot shows a web browser window with the title bar "Cozy Crib" and "Airbnb-14 Project Report - Go...". The address bar shows "localhost:3000/reservations/list/6390d4ad746cab8544a34f44". Below the address bar is a navigation bar with links to "Gmail", "YouTube", "Maps", "RippleMatch - Fin...", "Jobs & Internship...", "(3) NodeJS and M...", "List your property", "Help", "Contact us", and a user icon.

The main content area displays a user profile for "likhitha emmadi" with a blue placeholder profile picture. Below the profile picture, there is a "My profile" section with three buttons: "Edit profile" (with a pencil icon), "Reservations" (with a calendar icon), and "Favourites" (with a heart icon).

The "Reservations" section has a header with columns: "Status", "Guests", "Check in", "Check out", "Booked", and "Listing". A single reservation row is listed:

Status	Guests	Check in	Check out	Booked	Listing
Completed	3	12/11/2022	12/14/2022	12/11/2022	6390d4ad746cab8544a34f44 Details

At the bottom of the "Reservations" section is a blue button labeled "Add a new reservation".

The footer of the page includes links to "Terms & Conditions" and "Privacy Policy" on the left, and "© 2022 Copyright Cozy Crib Inc." on the right.

Make a new reservation by clicking on reserve for the given property

The screenshot shows a web browser window with the title bar "Cozy Crib" and "Airbnb-14 Project Report - Go...". The address bar shows "localhost:3000/properties/6390d4ad746cab8544a34f44". Below the address bar is a navigation bar with links to "Gmail", "YouTube", "Maps", "RippleMatch - Fin...", "Jobs & Internship...", "(3) NodeJS and M...", "List your property", "Help", "Contact us", and a user icon.

The main content area displays a property listing for "Casita". At the top is a red "Reserve" button. Below it, the property name "Casita" is displayed, followed by a link "saved" with a heart icon.

A large image of the interior living room is shown, featuring a long sofa, a coffee table, a fireplace, and a staircase in the background.

The "Amenities" section lists the following features:

- Free wifi
- Free parking on premises
- Garden view
- TV
- Kitchen

Below the amenities, the text "Hosted by Cassie" and "3 Bedrooms with 5 Beds" is displayed.

The footer of the page includes links to "Terms & Conditions" and "Privacy Policy" on the left, and "© 2022 Copyright Cozy Crib Inc." on the right.

Work Division

Emmadi, Likhitha - Ixe220001

1. Designed the Database Schema - users, properties, reservations collections
2. Sign up - Email, phone number fields Validation and password verification, Check if the email id already exists in the database
3. Add property to favourites once user is logged in
4. Remove property from favourites if user is logged in
5. Search filter for properties - Search and display the properties in the given location that are available in the given check in and check out date
6. Sign up as a host
7. Upload single and multiple images while host adds properties
8. CRUD Operation for Reservations
 - a. Add reservation when user is logged in by checking the availability of the property in the given check in dates
 - b. Delete the reservation - cancel the reservation if it is 48 hours before check in date.

List of APIs Implemented

No	Route	API	Description
1	/register /register	GET POST	Signup page Create New User
2	/hostsignup	POST	To sign up as a host
3	/search	POST	To search for properties based on the given input values of city, dates
4	/reservations/:id/new /reservationsn/:propertyid /:userid/add /reservations/:id/delete /reservations/:id/details	GET POST DELETE GET	Form to create a new reservation for the user Create a new reservation Cancel the reservation Show complete details of the reservation Show complete details of the reservation
5	/addfavourite	GET	Add the property as favourite by passing the details as query parameters.

	/removefavourite	GET	Remove the property from favourite by passing the details as query parameters
--	------------------	-----	---

Soundararajan, Kameshwari - kxs210013

1. Designed the Database Schema - host collection
2. Home Page
3. List all the properties from the database in the home page and display the details of the property.
4. Login - Authenticate user
5. Add rating and reviews to property if user is logged in
6. Add properties when user is registered as Host
7. List all the properties hosted by user if he is a host
8. Delete the property - Mark it as unavailable.

List of all APIs implemented:

No	Route	API	Description
1	/	GET	Home page to list all properties
2	/login /login	GET POST	Login page Authenticate User
